MONTHLY COMMENT

Horizon Net Asset Value per unit (NAV) appreciated by **2.01%** during December where it ended the month at JD **128.901**. Regional markets witnessed sharp rise – especially blue chips - due to heavy buying from regional & foreign institutions and funds which found attractive investment opportunities in the region compared to other emerging markets, besides growth in liquidity and volumes which attracts speculators. The Fund Manager expects buying activity to continue in January 2008 due to building new positions in addition to speculative buying in anticipation of fourth quarter results.
